

Assignment - 2

Explain what are contents available in annual report

Integrated Reporting

Integrated Reporting comprises communication of Financial capital and non-Financial capital contributing to the creation of organizational value.

Financial capital and non Financial Factors, such as Human capital's skills Intellectual capital and Social Reputation Shape the value of an organization

~~Over~~ Company :-

An annual report for a publicly traded company typically contains highlights of the company's activities and performance during the previous year, future goals and objectives, a letter to share holders from the CEO or company president, an auditor's report and detailed financial statements

Board of Directors.

Board of Directors is document provides stakeholders with a comprehensive overview of a company's financial performance, strategic direction and governance practices.

Share holders message

An annual reports is a document that public corporations must provide annually to shareholders that describes their operations and financial conditions.

Management Discussion & Analysis.

Management Discussion & Analysis (MD&A) is a section within a company annual report or quarterly filing where executives analyze the company performance.

Our Business model

Business model is a comprehensive report detailing a company's activities throughout the preceding year.

Risks & Opportunities.

A Risk is a potential for a loss. An Opportunity is a potential for a gain. However, these aren't separate or opposing concepts. Instead, an opportunity is inherently a risk as well.

Other Disclosures:-

The Disclosures reports contain information about a company's business activities financial condition, management compensation, operating performance and direction

Our Strategic Report:-

The Strategic reports should provide the readers of the annual report with a fair review of the company's business and a description of the principle risks it faces

Statutory Reports.

The purpose of a statutory reports is to give investors and regulators information about a company's financial condition and performance

Board's Report:-

Board's Report is a comprehensive document circumscribing both financial and non-financial information serving to inform the stakeholders about the overall financial position of the company and its operation and Business Scope

Report on Corporate Governance

This is also called the annual corporate reports. A corporate governance report includes a Statement of corporate governance procedures and compliance information on board composition, Statements on the company's performance, and information about compliance and conformance with best practices for good corporate governance.

Financial Statements.

An Annual report is a comprehensive report detailing a company's activities throughout the preceding year.

Standalone Financial Statement:

A Standalone financial statement presents the financial performance, position and cash flows of a single company as an independent entity without considering its subsidiaries or affiliations.

Consolidated Financial Statement:-

Consolidated financial statements are the overall financial statements of any entity with multiple divisions, including the parent company and all subsidiaries that are controlled by the parent company.

Defining
